

The recoupling margin as an ambiguity meter

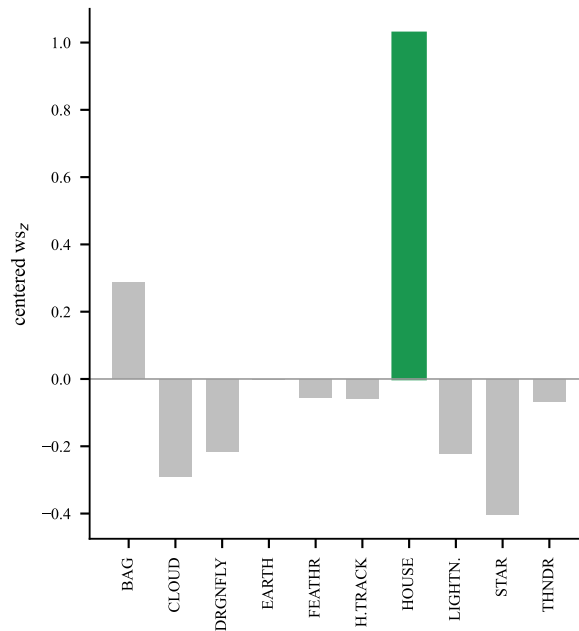

(A) The margin separates settled from open readings (AUC 0.78); ambiguous phrases land with the open ones

(B) High-margin probes are the confident ones; answering only those raises accuracy

(C1) high margin, settled (margin 0.74)
“inside the warm ring of lodges everyone was lo ...”
intended HOUSE

(C2) low margin, open (margin 0.04)
“the four ways meet at a center where a person ...”
intended STAR, read as BAG
